## EDUCATION

**Full Stack Certificate**  
**UNC Chapel Hill Coding Full Stack Bootcamp | Remote**

Oct '22

Completed a 6 month intensive program focused on gaining technical expertise to develop interactive web applications that utilize UI, front-end, and back-end technologies. Contains 450+ hours of live instructional time, asynchronous material, group projects, and individual assignments.

**Bachelors of Science**  
**Appalachian State University | Boone, NC**

Jun '19

Cultural Anthropology | Spanish | Sustainable Development  
Senior Honors Award for Applied Anthropology

## PROJECTS

**Hand Me Up | Front & Back End Collaborator**  
github.com/olivelliott/hand-me-up | polar-chamber-11415.herokuapp.com

- An interactive multi-page MERN Stack re-sale application where users exchange second hand clothing with an option to donate to a non profit organization of their choosing
- Group project structured around Agile methodologies. Structured back end technology with ExpressJS and Mongoose then transitioned to assist front end styling and responsive design to meet MVP standards
- Showcases ability to adapt to project needs and manage group members in assigning tasks tailored to their strengths
- Languages:** NodeJS, ExpressJS, MongoDB, ReactJS

**Hempire | Creator**  
github.com/olivelliott/hempire\_next | hempirerocks.com

- A responsive single page portfolio created for a local band to showcase their music for booking agents, sell merchandise to fans, and advertise upcoming shows
- Post graduate project exemplifies proactive desire to develop diverse skills. Self taught use of NextJS and TailwindCSS highlights eagerness to excel in learning new languages.
- Languages:** NextJS 13, ReactJS, TailwindCSS

**Social Network API | Creator**  
github.com/olivelliott/social-network-api

- An API for a social network web application where users can share their thoughts, react to friends' thoughts, and create a friend list.

**Languages:** ExpressJS, Mongoose

## SUMMARY

Dedicated full stack web developer trained at the UNC Chapel Hill Coding Bootcamp seeking employment in a challenging and collaborative environment. Effective at combining creativity and problem solving to develop responsive, user-friendly applications.

Proactive and hard working individual focused on continuous operational improvement. Highly motivated team player and a fast learner, with strong communication skills, attention to detail, and adaptability.
